

A close-up photograph of a stone fountain. The fountain is made of light-colored, textured stone and has a wide, shallow basin at the top. Water is spraying upwards from the center of the basin, creating a misty, white plume. The water is clear and bright, contrasting with the darker, brownish water in the surrounding pool. The background shows more of the fountain's structure and the surrounding water, with some rocks visible. The overall scene is dynamic and captures the movement of water.
